Egyptian Pharaonic Chakra System with their Essences

“Divine Magick – Our Messages are in the Essences” – RA & ISIS

Beloved Essences Are Particularly Healing and Powerful. They Are Tools That Help with Ascension and are Keys to The Living Library (That’s YOU).

THE POWER OF THE CHAKRAS

The Essences are all high vibrational and blessed. They are blessed by The Holy Man at the pyramids (my twin flame husband) and Isis and Ra not to mention all the other masters, angels and beings of light for which they carry their names. He carries the energy of RA and I hold the energy of Isis. Chakras are portals, your invisible energy wheels aligned in your central crystalline light column.

IMPORTANT TIPS and Guidelines to follow if you are NEW to Using BELOVED ESSENCES

These are extremely powerful and carry super high vibrations for clearing, healing and aligning all your bodies. Yes plural - bodies. Your physical, etherical, mental, spiritual and so on.

If you are a “sensitive” and can feel energies easily don’t be surprised if you can feel these even before you take them out of their packages. However, once you do, please be gentle with yourself. I suggest applying just one a day at first. Be sure to take your time and smell each one by one as you apply them to your body. You can place them where the chakras actually are on your body or you can just place them up the inside of your forearms. The Essences will do their work automatically whether you are aware of it or not or even if you can’t feel anything. Just let them do what they do. You will adjust very quickly and within a week will be able to put all 10 on in one setting so they can align, clear and balance your chakras (invisible energy wheels). Everything is about energy and how well you react to it. I am always available either on the phone or on a video call where I can talk you through using them one by one if you prefer. We would just need to schedule a time that we can get together. I’m super excited and here for you for this lovely journey with using these Blessed Essences.

If you feel you sensitive enough to outside energies that have been bothering you and would like extra protection. I also have the super Powerful Protection Essences of OUD. I have included a link to the website which will explain much more about OUD for you.

THE POWER OF THE CHAKRAS

Who Am I and How are These Essences Different?

To begin with, I'm just a normal human person that has had ups and downs, challenges and triumphs and in my life. That's what being human is, isn't it? We come into human form to experience human feelings of emotions, situations, connections and all of the wonderful, lovely things and some not so lovely; but the experience and the growth opportunities, mentally, physically and spiritually are always there to glean from.

So not only are we in physical form, we also have higher self that is our spiritual form. This form has been with us since birth and through many, many other life times and births.

My higher self, the true self, carries the energy consciousness and vibration of the Egyptian Goddess Isis, who is a beautiful loving and compassionate being of light who came to help humanity from a different realm or galaxy, if you prefer that word instead. The energetic being of Isis and the energetic being the Egyptian God RA introduced themselves to me when I was in Egypt decades ago. They told me that they are the Guardians of the Ancient Egyptian Essences and of the teachings that will go forth for humanity to understand the importance, power and necessity of working with these beautiful Ancient Egyptian Essences.

All throughout Egypt you will find merchants who are there to sell you their essence (oils). The regular tourist, not a local or native Egyptian, does not understand that in today's world the beauty of the pure essence can be synthesized, and diluted in a way that the fragrance you are introduced to while in Egypt, will fade away and can even turn rancid over a period of time. Now don't get me wrong, not all merchants have done this to their product, but many have and as a tourist you don't know the difference until you return home with your purchase.

*The Essences that I take care of have an extremely high vibration, imbued with the blessings of the Egyptian Goddess Isis and God Ra, the Godfather-Holy Man of Egypt and many of the ascended masters. These are **frequency** not just nice smells. They are pure essence, without additional oils, chemicals, water or alteration to their ancient way of creating them. The frequency that is bestowed upon these essences is one of the great secrets and the ancient Egyptians understood and used these essences for their highly evolved spiritual and mystical teachings and initiations.*

THE POWER OF THE CHAKRAS

Another secret was their ancient process of maceration of the fragrant petals or natural botanicals in large vats of water. Now maceration is the oldest method of all and it's traditionally known that oil was used to soak the petals in for long periods of time. However, being soaked in water takes the longest time, a period of many years during which the process of moving the large vats of water to spend periods of time above ground in the sunlight and moonlight and then the move the vats back, deep underground is very slow, labor intensive and time consuming. With these Essences being frequency and with the higher beings of light, Isis and Ra and others, as the Guardians of these essences (frequencies) they are always in the correct vibration that is being experienced with the current shifts of frequency that humanity and mother earth is undergoing at this amazing time of expansion.

THE POWER OF THE CHAKRAS

	<p><u>LOTUS</u> The Ancient Royals believed the Lotus Flower was the guidance that lead the way for their soul’s retrieval. It was a symbol of Love. When you go to the 2nd floor of the Egyptian Museum in Cairo, you will see the exhibit of when they discovered lotus seeds in the vases of the golden mosque of King Tutankhamen. There were 4 alabaster vases and the Lotus they found was in its pure concentrated form. After 4,000 years the smell and vibrations was still present in the discovered vases. The Lotus flowers themselves have been grown by the nature spirits for millions of years. Lotus is used by both men and women</p>
<p>Rare Blue Lotus 8th - Heavenly Chakra- Aura Color: White</p>	<p>The Rare Egyptian Blue Lotus has similar properties to white lotus but much more powerful and activates the 8th chakra. Very special to use and it connects to the 3rd eye or Universal eye to understand and get the sense of “I Am” and “I AM Me”. It is located above the 8th charka about 18” to 3 feet. It creates a wonderful uplifting, happy feeling. You will float. The 9th Chakra also carries the energetic vibration of ISIS</p>
<p>MOST IMPORTANT ABOUT ANGEL AND MAINGATE</p>	<p>Feeling of soaring with Angel and grounded back with Main Gate. Ra is adamant about not going out anywhere with just Angel without grounding yourself back into your body with Main Gate. This is very important, especially in the beginning. You might be able to handle Angel alone as you get more and more used to its uplifting energy. Check to see if your meridians are running backward. If so, do the Cross crawl and to get them running correctly again.</p>
<p>Main Gate 10th – Below the Feet</p>	<p>A combination of tree, herbs and flower essences with a touch of Royal Amber, Sandalwood and White Musk. Deeply connects</p>

THE POWER OF THE CHAKRAS

Color: Almond	to the energy of the Earth Star Chakra. It helps you to return from astral travel and to ground. Carries the energetic vibration of RA. It's located below your feet the same distance below ground as your height. You can place the essence on the bottom of your feet.
Listen to your own intuition as to when and where you want to put a chakra essence or all of them. And notice if the color is not necessarily the traditional color you are used to for that chakra area. All our chakras are starting to merge into one just as we are beginning to recognize in our own physicality that we are all connected, part of the one. Just as RA has taught us in The Law Of One - - or can also be recognized as One-ness. As you continue to use these essences, you will start to notice that you will change how you want to use them. Be sure to truly follow your guidance and use them as you feel is right each day.	

Testimonials and Comments

Recently, I had a surgery that not only was a difficult recovery physically but mentally and found out that it was also a very STRONG life "lesson"... I had many ups and downs along with mental anguish associated with this surgery and in my worst days and hours, I felt strongly guided to pick up my beautiful pouch of essences. The ones that called to me most were for the 1st, 2nd and 3rd Chakras which amazingly were exactly where the severe pain was. Upon listening, and applying the Beloved Essences, I could feel the heat and energy go directly to where I needed it to most and felt immediate relief for hours. These essences were healing me.... Along with bringing me the mental calm, peace and strength I needed to keep going. I know without a doubt that these essences called to me directly...they knew I needed their help. This just proves to me that Spirit is strong and lives in each and every one of us and calls to us and gives us guidance when we can't seem to hear, or see anything else. These essences are a magical gift from Spirit given to Madalyn to share with the world. I can't thank you enough Maddie....I will never go another day without them. In my normal physical state, they provide me with a direct feeling of linking in with Spirit and can't imagine my life without them. Thank you for bringing to us Madalyn! Forever a customer in heart, mind and body!" Love & Light, Susan C., TX.

Rose Essence: I prepared a bath, added 5 drops of heart chakra essence and stirred the water gently. Once in the tub, I made sure my heart chakra was submerged. At the end of several minutes I began to Reiki my heart chakra just beneath the left breast. With my eyes closed, I saw myself inside a jail cell. I then saw myself throw the cell door open wide, and without hesitation, I ran out of my cell. The experience of seeing that was exhilarating and I was overcome with happiness! My life has changed substantially, in so many positive ways, during the 3 months since I had that thrilling experience. Thank you for making this wonderful turn of events possible. "I never realized the power of these essences as a daily toolkit before but since I've started using them regularly, I can really appreciate what they do for me". Cynthia G. – TX
