Part 3: Divine Feminine Male-Female Balance

The Great Sphinx of Giza Speaks

I was in Egypt for the arrival of 2012 at the New Year, and before I left the United States my guides had given me instructions that I was to spend time with the Sphinx. I was guided specifically to be at the right paw of the sphinx at 11:00 am on January 11, 12 & 13 of 2012, and at the same time each day. I was to sit, listening and write the messages I would receive. On the third day after receiving the information from the Sphinx, I was to go to the ancient Isis temples at Giza and record the messages I would receive from there.

Ending with the wise words from Isis provided the balance of the male and female energies. The Sphinx carries both the male and female vibrations, and in this instance the male was prominent for these messages. I also received many ancient symbols which are noted in my transcribed pages but are not drawn here.

Day One at the Sphinx

“We are here to show you secrets never before revealed. We buried much information in the beginning and now it is time to share with all of humanity.

“THOTH, RA, ISIS, MAAT, HATHOR, SEKHMET, OSIRIS, HORUS and many more have come to your side. Relax and we will begin.

“Ancient times were so different and not as backward as most believe. We are from a very advanced civilization and our skills and abilities from that time were enormous especially compared to your skills and knowledge of today.

Never in ancient times were we unable to communicate with just our thoughts. Everything was formed with thought. Then as thousands of years passed, man's abilities became darker and we had to remove much of what we used then. We ourselves had to withdraw until the proper time when man was again ready to become their oneness of which we all are.

The ancient times of which your history speaks of is the period after we withdrew, and man was again totally without any special abilities or skills. Then they had to learn for themselves what they had lost and figure a way to recover it and a connection to us.”

(Four or five symbols came through that I drew on my paper)

“Seven to nine dimensions - all more advanced than Earth, the school of experiments and tests.

I Am RA and you are my child. Never doubt the messages you are receiving. You are receiving them from us accurately.

We built this (the Sphinx and Giza plateau) to help remind you that we are you and that we were here at the time that you remembered this. There is NOTHING that we can do that you cannot do also. Just as the avatar Jesus said in his cryptic messages to the then unaware populace. 'These things and MORE you can do!'

(Another symbol came through at this point).

“One more thing, thank you for coming and believing in us and in your ability to communicate with us. Your twin flame easily understands because he has been through this already long ago. He has just been waiting for you to awaken again to your strengths, separately, alone and together.”¹

¹ Interesting note: I did have the shakes and tremors throughout my body as I prepared to leave and my personal escort had to support me for a while as we walked away until my strength returned and I stopped trembling.)

Day Two at the Sphinx

The second day I noticed that I had been sitting on a large stone foundation that contained some sort of writings or characters all in line order that I did not recognize and could not decipher. But it felt to me that it was some sort of words. I finished admiring the wonderful and comfortable stone platform, got comfortable, and started to receive this message.

“This is ancient writing you are sitting on. Our people hid more messages there. It is like a time calendar.

All is changing as of NOW. Use your talents to share this information and messages with as many will listen. They all need to know that much of the better is coming for them soon. Remind all to not be afraid of any message they may be receiving from now forward even if they have not received any messages at all that they are aware of yet. We will be intensifying everyone’s ability to connect with us. Most will ignore these messages unless you prepare them for this to happen.”

(A symbol was drawn.)

“We are preparing many for this work and you are one of our important messengers. All are ready to assist you as need be so please understand that many guides and guardians are near you at our requests. Keep yourself calm and listen carefully.

The ancients have already returned, and they will start to make themselves known to you and those you align with for this work very soon.

“I Am RA and again I say to you that you are my daughter and we all welcome you to your sacred homeland of long ago.

Under the far side on this Sphinx here at Giza much will be discovered again. It was discovered before and then re-hidden as if nothing had been found. It cannot be hidden much longer. We will not allow this to happen.

Isis is here now and wants you to understand the importance of this truth for all on the earth planet at this time. We have always been close even though we had to withdraw. We have sent many important messengers to return to this planet to constantly and gradually begin this awakening. Much more has been said in these last several years about unexplained and unseen beings of energy. This is the final stages of the (gentle) awakening reminders. Now we come in full force, full power and glory to reveal much to the people of earth. You, or course, were sent from us along with your Twin Flame and many from your group of present friends. More will come to all of you hungry for information.

We will advise you on the best ways to start to uncover their eyes and awaken their minds. Depend upon us for this advice so the ego from the human body you currently occupy does not think it needs to do this. We are your guides for this work to be shared and experienced accurately and correctly.” (two more symbols).

“Commander Ashtar is most certainly one of your direct contacts along with us. He is, of course, with you because you are not from this planet and he is responsible for your safety while you are in the world of heavy dark vibrations.

The emerald tablets are no longer under this Sphinx, but the energetic imprint is here and is what you are receiving impressions from. The emerald tablets are safely in an invisible plane and again at a time we can determine is best, we will reveal them to the visible plane. There are many invisible (over pyramids) directly covering each of the existing pyramids and the same is for the sphinx. The invisible pyramids and sphinx are so much larger than the ones that you can currently see. They all are so large that they connect into one large complex with many of us light beings walking there. You will see this soon in dreamtime and then later in physical sight.

Be prepared. Let others know as we say again, to not be afraid, as we have returned to you.

Thank you for coming and let's stop here for today but we will be with you the rest of today, tonight and forever more. We love you dearly.”
